Editorial Guidelines

SEQanswers (SEQanswers.com) is an open access community and discussion-based forum on sequencing technologies. Participants span across many scientific disciplines and can freely discuss literature, methodologies, technologies, projects, collaborations, and data analysis. Initially launched in 2007, SEQanswers has accumulated thousands of users worldwide and continues to be a powerful resource for scientists to advance the fields of sequencing and genomic science.

SEQanswers was recently acquired by Biocompare, a trusted and comprehensive resource for up-to-date product information, reviews, and new technologies for scientists. Biocompare has built upon the site's success by adding engaging content including editorial articles, news, webinars, and bi-weekly newsletters tailored to research interests based on user recommendations.

The active online community includes researchers from major universities and genome centers, as well as key developers of influential methods and data analysis tools. Referenced in over 60 peer-reviewed journal articles, SEQanswers has enabled scientists to collaborate and obtain critical information relevant to their sequencing related studies.

SEQanswers welcomes scientists and companies to participate in the community and share relevant content such as featured posts, product announcements, educational articles, events, webinars, and other useful sequencing resources. We also encourage news related to developing technologies and scientific discoveries.

SEQanswers' guidelines for requesting or being included in our editorial content are explained below.

Editorial Articles

Our editorial articles cover a diverse array of topics that address the needs of our scientific community. Written by scientific writers with hands-on laboratory experience, these articles discuss essential methods, current innovations, and common issues, along with their effective solutions. Each piece integrates perspectives from vendors and researchers in both industry and academia, ensuring a detailed and insightful voice on every topic.

<u>Example</u>

Note: SEQanswers neither solicits nor accepts payment for coverage in editorial articles and respects all embargoes. Editorial articles are independent of advertising considerations. Companies may ask to be contacted for specific editorial articles, but the decision to interview and/or include them in any given article is solely within the discretion of the writer and/or editor.

To inquire about editorial article opportunities, please contact <u>batha@seqanswers.com</u>.

News

The news section on SEQanswers covers the latest advances and discoveries involving sequencing and related technologies. News coverage may include embedded images or video. Inclusion of information is at the discretion of the editorial team. Please send all news related opportunities to <u>batha@seqanswers.com</u>.

Posts and Site Engagement

SEQanswers encourages participation on the site through discussions and relevant posts. We believe that commenting on threads, answering questions, and non-commercial posts can be beneficial to our members and facilitates learning and active discussion. However, posts and discussions that are commercial in nature are restricted to sponsored content, which is separated from most general discussion and coordinated with our editorial team. All comments and posts coming from a commercial account should be added to our site's registered vendor list and should not pose as a regular member. For clarifications about site engagement, discussions regarding acceptable posts, or for registration of a vendor account, please contact our editorial team at <u>batha@seqanswers.com</u>.

New Product Information

SEQanswers may use the information from new product releases to guide the direction of upcoming editorial articles. We encourage submissions with that purpose in mind and with a focus on the utility for our community members. Please note that SEQanswers does not typically include new product releases in its News section. Send information to <u>productnews@seqanswers.com</u> for consideration by the managing editor for coverage in future editorial articles.

Sponsored Content Opportunities

Please contact a sales representative for more details on sponsored content or email sales@seqanswers.com.
